

FOR IMMEDIATE RELEASE

FEBRUARY 9, 2009

The Human Resources Organization (HRO) and Minuteman Governance Form Strategic Partnership.

WESTBORO, MA. – The Human Resources Organization (HRO), a leader in providing flexible HR Solutions throughout the United States, Europe and China, has formed a strategic alliance with Minuteman Governance, Inc., a Hopkinton, MA consultancy that provides information security and data governance solutions throughout the public and private sectors, the companies announced today.

Under the alliance, Minuteman's comprehensive data protection services will compliment the HRO's full range of outsourced human resource services, including employee benefits, insurance, payroll, training and executive coaching. "We chose to partner with Minuteman Governance because of their capability to deliver innovative, cost effective information security services to small, medium and large businesses. With the pending Massachusetts Data Protection law, this move will allow HRO to provide our clients with the expertise necessary to comply with this regulation," said Ultan Feighery, President of the Westboro-based HRO. "We strive to provide our clients with a solution for any need that they may have. Right now, a major need is data protection."

"By forming an alliance with an internationally recognized human resources outsourcer, Minuteman gains access to vast and diverse markets. Small and mid-size companies are struggling to protect their customer and employee information," said John Moynihan, Managing Director of Minuteman Governance. Moynihan added, "This is a great move for us, HRO and our respective clients."

ABOUT "HRO"

The Human Resources Organization is a full-service Professional Human Resources Company and a leader in flexible HR Solutions in the modern workplace. HRO provides a full range of Employee Benefits, including Life, Health, STD, LTD, Long Term Care in addition to Property and Casualty insurance with a heavy focus on Workers Compensation.
